

OATH

**In joining the academic community of the Medical University of Gdańsk
I swear**

- **to do all I can to gain the knowledge and skills I need to work in the service of the sick,**
- **to follow ethical principles and to keep the secrets which are entrusted to me by the patients with whom I come into contact,**
- **to strive to live in a humanitarian, upright and courageous spirit and diligently to seek the truth,**
- **to abide by the rules of the academic authorities, to uphold the traditions of the student community, to discharge my duties conscientiously and to uphold the dignity and academic standing of the University.**

Students answer – I SWEAR
